

Arcall FQB Spray Gun

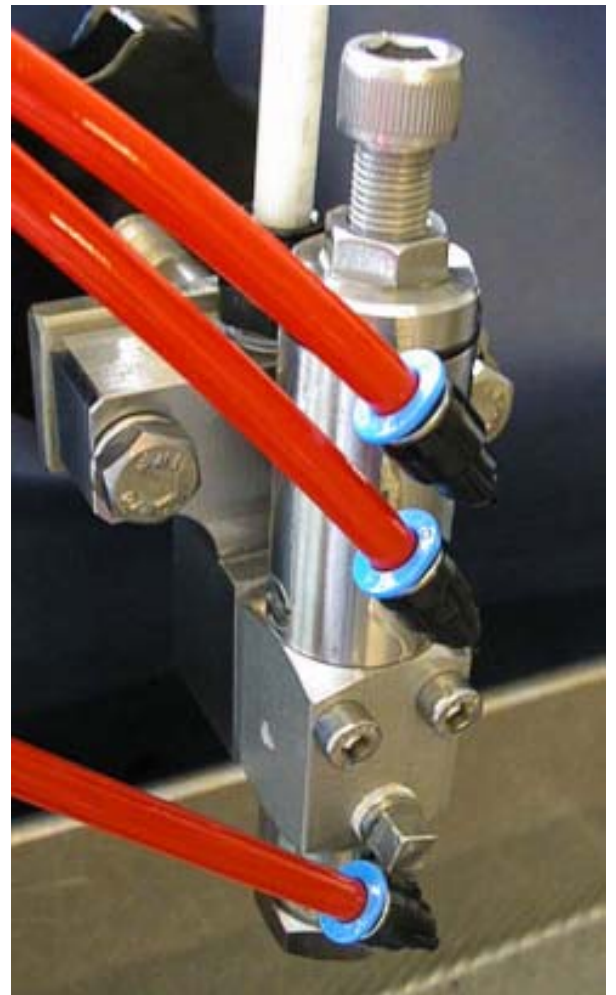

The World's First Spray Gun Developed Exclusively for the Food Industry

There is no longer any need to compromise when it comes to Spray Guns for use in the food processing industry. The Arcall FQB is fully food quality and designed for the food production environment.

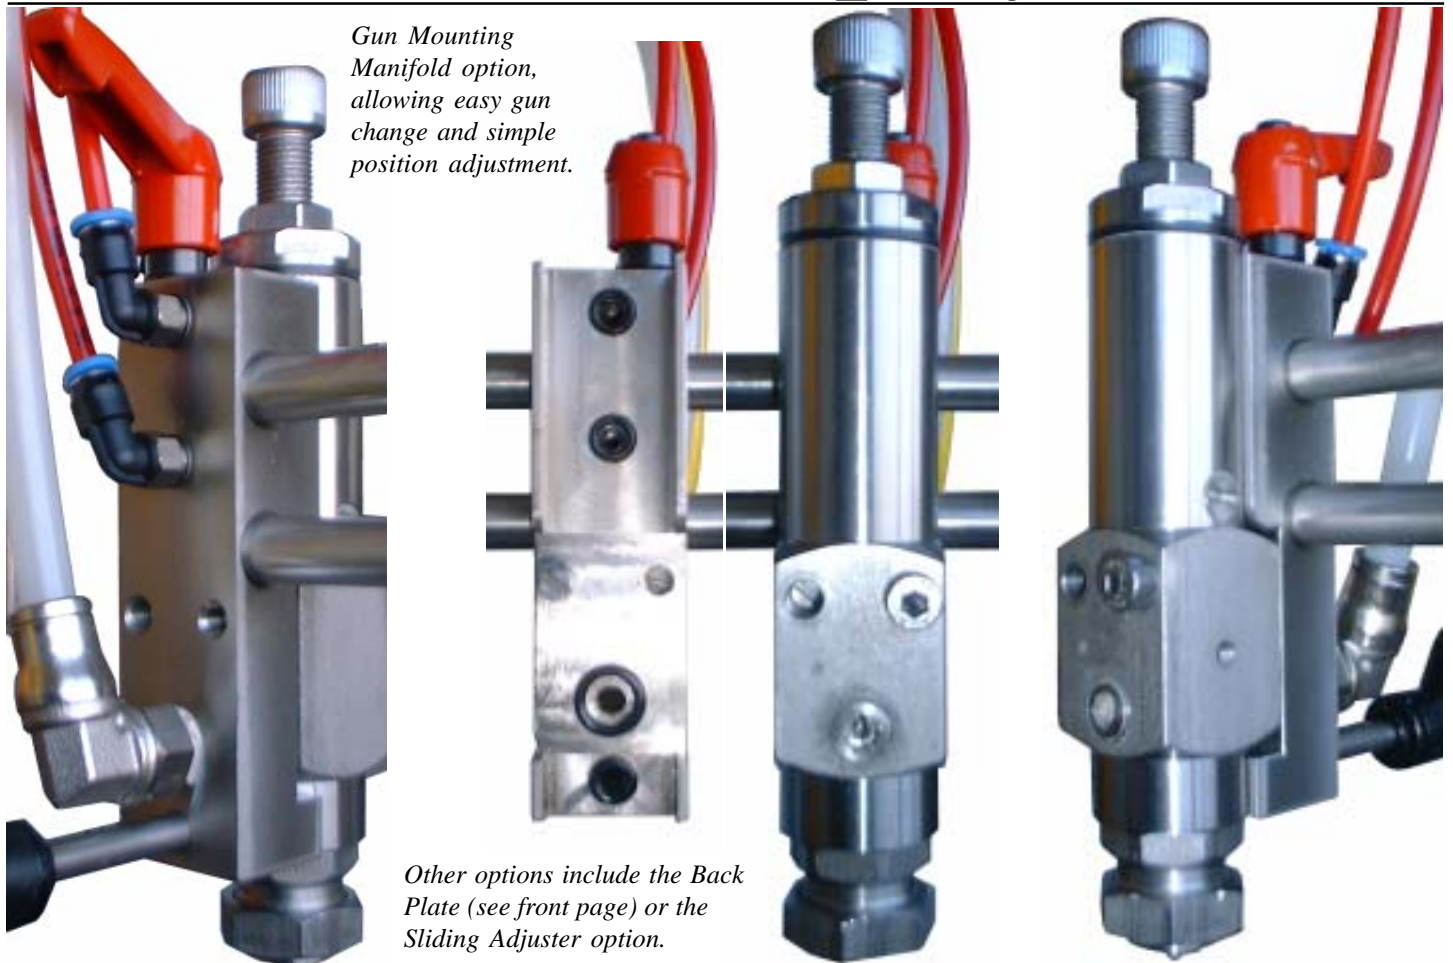

At Arcall we used to rely upon the supply of spray guns from manufacturers who were more interested in paint spraying applications. We decided that enough was enough - we know the design issues, the price expectations, the reliability requirements and the accuracy needs of the industry, so here we have the answer.

- * **All 316 stainless steel -**
Economically priced and fully food quality. No longer any need to compromise quality for cost.
- * **Exceptional slim design -**
down to 25mm (1") centres for multiple gun deployment
- * **Continuous spray or dosed application (to 200 cycles per min) -**
Designed for food production requirements.
- * **6 - 18 months continuous operation between services -**
Lower costs of ownership.
- * **Wide range of mounting options -**
To suit all maintenance needs.
- * **Double acting on/off spray action -**
The most positive control over fluid flow cut off, reducing waste and mess.
- * **Auxiliary stroke adjuster as standard -**
Precision adjustment for balancing multiple gun deployment and quality performance with economic application

Engineering Quality For Food

Arcall FQB Spray Gun

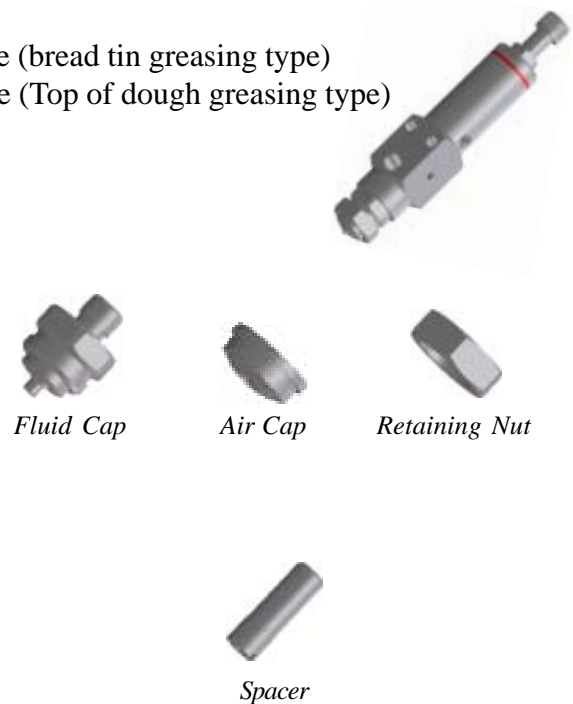

Parts List and Part Number Reference:

sa/12/001.1	Complete gun including nozzle set and back plate (bread tin greasing type)
sa/12/001.2	Complete gun including nozzle set and back plate (Top of dough greasing type)
sa/12/013	Gun Body (excluding nozzle set and back plate)
m/10/315	Back plate only (as shown on front page)
m/13/193	Gun Mounting Manifold (see above)

Nozzles and nozzle fittings:

AB201103.1	Fluid nozzle for tin greasing type applications
AB201056.1	Fluid nozzle for top of dough type applications
AB201055.1	Air Cap
AB201001	Retaining nut

Service Kit		Quantity
AB201066.1	PTFE Seal (x/00/018)	x1
AB201062.1	Quad ring	x2
AB201063.1	Spacer	x1
BG451207	Large O ring	x3
BG451208	Small O ring	x1
